## LONGWORTH'S BODY STARTS "BACK HOME"

### Special Train Carrying Funeral Party To Cincinnati, O.

By FOSTER EATON.

(United Press Staff Correspondent)

Aiken, S. C., April 10—(UP)—The body of Nichols Longworth, Speaker of the House of Representatives, started home to Cincinnati for burial today. The special train, chartered by the government, left Aiken at 11:36 A. M.

Just before 11 A. M. a simple hearse drove up to the home of Mr. and Mrs. James F. Curtis where Longworth died yesterday. The casket was moved to the hearse from the flower-banked drawing room and carried to the railway station, where it was placed within the private case of Charles Clarke.

Ten automobiles carrying members of Aiken's social colony, who had known the Speaker as an annual participant in the gaieties of Aiken life, accompanied the hearse. They included Mayor Weathersford, Devoreaux Milburn, polo player; Skiddy Van State, sportsman; Mrs. Evelyn McLean of Washington, close friend of the now widowed Alice Roosevelt Longworth; and Dr. Robert Henry Wilds, chief of the physicians who attended Longworth in his last illness.

Brothers With Widow.

Mrs. Longworth, garbed in black, accompanied by her brothers and other members of her immediate group, left the Curtis home just before 11:30 A. M., the time set for departure of the train. She stepped into a large black sedan—the personal car of Mrs. Curtis—which waited at the door. The party drove through all but deserted streets to the station.

Immediately Mrs. Longworth stepped from the car, and unassisted, walked the eight feet across the platform to the private car waiting on the tracks. She entered it immediately and disappeared behind the drawn curtains.

The crowd on the platform stood in utter silence as the train began moving slowly down the track and finally vanished in the distance.

### OFFICIALS TO ATTEND

Washington, April 10—(AP)—Two trains carrying government officials will leave the Capital tonight for Cincinnati to attend the funeral of the late Speaker Longworth.

The first will leave early in the evening and will carry the Senate and House delegations and other administrative officials.

The presidential train will arrive at the Oakley station, Cincinnati, shortly before noon tomorrow, where it will be met by Mayor Wilson and other city officials, who will escort the President and Mrs. Hoover to the Longworth home, "Rockwood."

After a short visit with Mrs. Longworth, Mr. and Mrs. Hoover will return to the train and have lunch, leaving it just in time to reach Christ Episcopal church before the services start.

### Return After Funeral

After the services Mr. and Mrs. Hoover will have with him Theodore Joslin and Walter Newton, two of his secretaries; Captain Joel Boone, White House physician; Captain Russell Train, naval aide, and Col. Campbell Hedges, military aide.

Major Wilson was in Washington today cooperating with House members and with the White House in making arrangements for the funeral. He will return to Cincinnati at once.

The removal of the debonair Longworth, whose leadership concurredly kept Republicans in line on many votes, renewed discussion of possibilities in the next House. Republican leaders conceded their hope of organizing a considerable setback.

**Talk Successor**

Longworth's death brought to 215 the Republican seats. Democrats hold 215, the Farmer-Labor party one and there are three vacancies. Two of the latter possibly will be filled by Republicans although Longworth's margin in the last election was not as large as had been expected. There is, too, a Democratic vacancy.

Possible successors to the Speaker include Republican Floor Leader Tison of Connecticut, and the New Yorker, Chairman Snell of the potent Rules committee. There are some, however, who think a leader should be chosen from the western group, which includes Chairman Wood of the Appropriations committee, of Indiana; Representatives Koch of Kansas, Mapes and Michigan of Michigan, Ramseyer of Iowa, Hawley of Oregon and Beck of Pennsylvania.

### CITY IN MOURNING

Cincinnati, April 10—(UP)—A city which had honored the name of

(Continued From Page 1)

### HELD FATALLY WOUNDED WIFE FOR TWO HOURS

#### Executive Of Packing Company Says Wife Shot Herself

Chicago, April 10—(UP)—Franklin C. Simmons, Armour & Company executive, who was with his 28-year-old wife when she was fatally wounded early today, told police that she was killed accidentally and that he held her in his arms for two hours calling for help.

Simmons said his wife, Hazel, shot herself while they were drinking together in the kitchen of their Rogers Park apartment.

"We were talking about the death of our three-year-old daughter four months ago," he declared. "Hazel had a pistol in her lap and was toyng with it. Suddenly there was a shot and she fell over."

Simmons said he took her in his arms and cried for help. Mrs. Simmons' parents, Mr. and Mrs. Alfred N. Grant, Dodge City, Minn., who were asleep, did not respond.

"I held her for two hours," Simmons told police. "Then I took her to the Rogers Park hospital."

Mrs. Simmons died at the hospital after an hour later without regaining consciousness.

Authorities ended their questioning of the husband by taking him to the hospital to see the body.

Police considered the possibility that Mrs. Simmons may have committed suicide because of grief over her daughter's death. They were told by Mr. and Mrs. Grant that Simmons tried to kill himself and that Mrs. Simmons took an overdose of sleeping powders several months ago.

Mrs. Simmons' parents said they heard their son-in-law's cries during the night, but did not respond because they thought he was moaning in a nightmare.

#### Elinor Smith May Have Made Record

New York, April 10—(AP)—A sealed instrument was sent to Washington today to determine if Miss Elinor Smith, 19, has the altitude record for women flyers.

Flying above Manhattan yesterday the temperature 18 degrees below zero and a small iceberg around her chin, she watched the altimeter on the instrument board register 32,500 feet—slightly more than six miles. The present record of 28,418 feet, now only a month old, is held by Ruth Nichols. There's a second record of 30,453 feet for commercial planes that she also may have beaten. It's held by a man, George Grady.

Grady, who headed the Cook county delegation, told the Governor that the repeal bill is a mandate from the people.

#### Voters Run Government

Answering the charge that many people did not vote on the liquor question at the November election, O'Grady said, "I don't know that this government was ever operated by the people who didn't vote. A large percentage of the people didn't vote for Governor in 1928, but that didn't stop the state canvassing board from declaring your excellency elected."

"This bill was passed in both houses of the General Assembly and the legislators who voted for the measure knew what they were doing," O'Grady said. "They are in close touch with their constituents and had sounded out sentiment in their respective districts before voting on the bill."

"If you have sounded it out among your friends," he told the Governor, "you no doubt know that the great majority of the people are in favor of this measure."

Michel declared the repeal bills is not a Democrat measure, but that it is non-partisan. He said that those who voted for its passage were not nullificationists, but that they were abiding by the expressed will of the people.

He cited the outcome of recent elections in large cities throughout the state, many of whom elected Democrats for city posts and declared that he believed the same

### EMMERSON HEARS WETS PLEAD FOR REPEAL MEASURE

#### Governor Asked To Sign Measure Passed By Legislature

BY DON E. CHAMBERLAIN

(United Press Staff Correspondent)

Springfield, Ill., April 10—(UP)—

Election of A. J. Cermak, who made

his campaign on a dripping wet platform, as mayor of Chicago, was of

ered by "wets" today as a new rea-

son why Governor L. L. Emmerson

should sign the O'Grady-McDermott

bill to repeal all state prohibition

laws.

This reason and many others were

presented by leading "wets" from

Cook county and downstate at a

hearing before Emmerson in his ex-

ecutive offices here today.

Representative John M. Lee, Dem-

ocrat, Chicago, who cited Cermak's

election as a reason for signing the

bill declared that he "did not come

to Springfield to help meet the

deficit. Carlstrom got attorneys for

the two estates to agree to pay the

inheritance taxes before they were

due in May.

The University of Illinois deficit

of \$400,000 will be met May 1, the

statement said, and other state de-

partments and institutions will run

on the money until June 1.

### COLLECTION OF INHERITANCES TAX SAVES ILL.

#### Carlstrom's Efforts To Make Warrants Unnecessary

Chicago, April 10—(AP)—Attorney General Oscar Carlstrom's office

has announced today collection of inheritance taxes on two large Chi-

ago estates before May 1 will make

it unnecessary for the state to is-

sue tax anticipation warrants in or-

der to obtain funds.

Carlstrom recently ruled dissua-

cence of \$1,000,000 tax on the estate

of Thomas D. Jones, capitalist who

died last September 30, and \$300,000

on that of Ezra C. Farney, patent

medicine manufacturer, who died

September 10. The money will tide

the state over until collection of

general tax money June 1, it was

said.

Carlstrom recently ruled issuance

of the warrants was legal but he

advised against it. The state has

never been forced to resort to bor-

wartorship or due.

State Treasurer Ed-

ward J. Barrett then asked the At-

torney General to help meet the

deficit. Carlstrom got attorneys for

the two estates to agree to pay the

inheritance taxes before they were

due in May.

The University of Illinois deficit

of \$400,000 will be met May 1, the

statement said, and other state de-

partments and institutions will run

on the money until June 1.

### INFECTION FROM SLIGHT SCRATCH KILLS HARMONITE

#### Hezekiah Portner Died on Thursday Afternoon: Hurt 10 Days Ago

Hezekiah Portner, residing two

miles northwest of Harmon, died at

his home yesterday afternoon at 3

o'clock from blood poisoning, the re-

sult of an injury sustained one

week ago Monday, while engaged in

repairing a barb wire fence, when he

sustained a slight puncture on one

of the fingers of his right hand. The

wound did not bleed and he paid no

further attention to it until the first

of this week, when he suffered con-

siderable pain and infection develop-

ed. He grew rapidly worse and

Tuesday became critically ill. A

physician was summoned but the

infection had spread and his death

occurred yesterday afternoon at the

family home.

Mr. Portner, residing two

miles northwest of Harmon, died at

his home yesterday afternoon at 3

o'clock from blood poisoning, the re-

sult of an injury sustained one

week ago Monday, while engaged in

repairing a barb wire fence, when he

sustained a slight puncture on one

## TODAY'S MARKET REPORTS

MARKETS  
At A Glance

By United Press

Stocks firm up late in fourth hour as pressure lifts in rail group.

Bonds erratic; foreign strong; domestics weak.

Curb stocks drift irregularly lower; specialties in demand.

Chicago stocks irregular in narrow range.

Call money holds at renewal rate of 1% per cent.

Foreign exchange irregular; marks weak.

Wheat off on pro selling; corn breaks to new lows; oats off.

Chicago livestock: hogs uneven, mostly steady; cattle steady; sheep strong to 25c higher.

thing would happen in 1932 if Emerson vetoed the bill.

## Longworth Classed Wet

Representative LeRoy Green, Repub-  
lican, Rockford, paid tribute to the  
late Nicholas Longworth, Speaker of the  
House of Representatives of the United States, who died at Aiken, S. C., yesterday, in his address.

He declared that Longworth, in his belief, was the greatest Republican

and that he did not exclude President  
Herbert Hoover. Green pointed out that Longworth was a "wet.""Drys who are attempting to pur-  
sue the Governor to veto the re-  
peal bill are of the 'rule and ruin' type," he said. "A veto means the

election of a Democratic Governor in 1932."

"The present law allows unreason-  
able search and seizure—a man's  
home is no longer his castle," Green  
added.Senator Ray Paddock, Republican,  
Rockford, declared that he had al-  
ways been a "dry" but that he be-  
lieved the Republican party should  
live up to its campaign pledge.

## Cites Party Pledge

"When we adopted our platform  
last August," he said, "the people  
took us seriously and voted over-  
whelmingly for repeal. I don't see  
how we can ignore their expressed  
desire and expect to win in next  
year's election."Others at the hearing included  
Representative Sol Roderick, Repub-  
lican, Chicago; Representative Garry Noonan, Democrat, Chicago;  
Senator Thomas Courtney, Demo-  
crat, Chicago, Minority Leader; Rep-  
resentative Truman Snell, Democrat,  
Carlinville; and Senator Frank McDermott, Democrat, Chicago, co-  
author of the bill.At the conclusion of the hearing,  
Emmerson told the delegation that  
he would take their arguments under  
advisement, but refused to commit  
himself on the subject.Asked for a statement by the United  
Press, Emmerson said, that he did not wish to be interviewed.  
Questioned further as to when he  
would take action on the measure, he  
replied that he had until midnight  
Tuesday to determine his stand.French Boy Foiled  
In Stowaway TrialCairo, Egypt, Apr. 10—(AP)—The  
Craf Zeppelin passed over Cairo at  
4:20 p. m., thirteen hours ahead of  
its schedule time. The airship inquired  
by radio if a landing could be made but was informed that  
preparations were not completed.The airship will employ the interval  
in a voyage over upper Egypt  
and arrive at Almaza airdrome at  
6:30 tomorrow morning, as previously  
planned.FARMS' MARKET

FRED BLUMER  
IS SOUGHT BY  
AUTHORITIES

(Continued from Page 1)

fessional extortions.

Wells refused to accept the sheriff's theory that operators of wildcat  
breweries in northern Illinois may be  
responsible for the kidnaping.The officer pointed out, as a basis  
for this belief, the fact that persons  
running roadhouses or other drink-  
ing places could buy near beer from  
the Blumer company and spike it  
with alcohol more cheaply than they  
could purchase the alcoholic produce  
of the "wildcat" breweries.Although the company still bears  
Blumer's name, it was reorganized  
about seven years ago when Wells  
and Charles Streck, both of Ripon,  
Wis., purchased the controlling inter-ests and his wife returned from  
California last Wednesday and Blumer  
said he had just received a telephone  
call purportedly from a district manager  
of a drug store chain seeking to handle  
their near beer.Wells recalled today. The call last  
night was represented as an apparent  
continuation of the proposed deal."One of the nicest voices I have  
ever heard asked for Mr. Blumer,"<

**CADENCE**  
 —TESSA SWEAZY WEBB—  
 AM in love with lovely things;  
 A crimson rose; the ecstasy  
 Of April's first white flowering  
 tree,  
 A mocking bird's gold melody;  
 I am in love with lovely things.

The silence of the sun-drenched hills,  
 The golden lamps of daffodils,  
 A lilac bush where fragrance spills.

The velvet hush of fallen snow,  
 A still, dark night pierced by the  
 glow  
 Of amber stars in row on row.

A mother moulding human clay  
 To forms of loveliness each day,  
 Bright, happy children at their play.

I am in love with lovely things;  
 The curving beauty of the sea,  
 Where dashing waves go mad with  
 glee,  
 Vocal with song and poetry;  
 I am in love with lovely things.

 Adoration—Borowski  
 Romance, Yester Eve—Zamecnik Selection—The Desert Song—Romberg

Enchanted Forest—Spitalny  
 Violin solo—Andante Reiglosa—Thorne, Deane Ball  
 March in Aida—Verdi  
 Serenade—Toselli  
 A Japanese Sunset—Zamecnik  
 Meditation—Von Blow  
 March—Tercentenary—Frazee  
 Mrs. Will H. Smith is director and accompanist.

**Aimee To Build Temple In China**

Shanghai, China, April 10—(UP)—Mrs. Aimee Semple McPherson, California evangelist and the exponent of the "four square gospel," has decided to build a temple for her followers here.

Until the arrival of Mrs. McPherson for a brief visit recently it was not generally known that there was a Four Square Gospel Church in Shanghai. But while she was here Mrs. McPherson appeared before her followers and they decided to support her plan for a tabernacle in Shanghai seating 2,000 persons.

Although she said she was suffering from a nervous breakdown Mrs. McPherson found time to conduct negotiations for the purchase of a site. The present Four Square Gospel Church is capable of seating but 300.

It was in China that Mrs. McPherson, with her late first husband, Robert Semple, began her missionary work which later led to her spectacular evangelistic career.

**ATTENDED PARLOR CLUB BRIDGE PARTY**

Monday afternoon in the Dixon Masonic Temple, the following from Franklin Grove were numbered among those present at the Parlor Club bridge party: Mrs. William Crawford, Mrs. F. M. Bunker and daughter, Miss Margaret, Mrs. Frank Senger, Miss Elizabeth Durkee, Mrs. Harry Edgington and Mrs. Wilbur Bremner.

MENU...  
for the FAMILY

By MRS. ALEXANDER GEORGE  
**COFFEE CAKE FOR SUNDAY**  
 BREAKFAST  
 Breakfast  
 Grapefruit  
 Egg Omelet  
 Danish Coffee Cake  
 Coffee  
 Dinner  
 Roast Beef and Browned New  
 Potatoes  
 Buttered Cauliflower  
 Brown Gravy Spiced Peaches  
 Bread  
 Butter  
 Fruit Salad French Dressing  
 Strawberry Shortcake  
 Coffee  
 Supper  
 Beef Sandwiches Sweet Pickles  
 Fruit Cookies Tea  
 Danish Coffee Cake  
 2 cups flour  
 3 teaspoons baking powder  
 $\frac{1}{2}$  teaspoon salt  
 4 tablespoons fat  
 5 tablespoons fat  
 1 egg  
 $\frac{1}{2}$  cup milk  
 $\frac{1}{2}$  cup raisins  
 Mix the flour, baking powder, salt and sugar. Cut in the fat with a knife. Mix with knife, add rest of ingredients. Spread the soft dough onto a greased shallow pan. Flatten down until dough is 1 inch thick. Spread with the topping.

**Topping**  
 1 egg white beaten  
 $\frac{1}{2}$  cup light brown sugar  
 $\frac{1}{2}$  cup shelled almonds  
 $\frac{1}{2}$  teaspoon cinnamon  
 Mix ingredients and spread on top of the soft dough. Bake 20 minutes in moderate oven. Cut in bars or squares and serve with butter.

**Strawberry Shortcake**  
 2 cups flour  
 4 teaspoons baking powder  
 $\frac{1}{2}$  teaspoon salt  
 3 tablespoons lard  
 2 tablespoons butter  
 $\frac{1}{2}$  cup milk  
 3 cups berries  
 $\frac{1}{2}$  cup sugar  
 Wash and hull the berries. Add the sugar and chill.

Mix the flour, baking powder and salt. Cut in the lard and butter. Mix with a knife, add the milk. When soft dough forms, divide it in 6 pieces and pat out each piece until it is  $\frac{1}{2}$  inch thick. Bake 12 minutes on greased pan in a moderate oven. When done split the cakes and add portions of the berries. Replace the tops and cover with the remaining berries. Serve plain, with whipped or plain cream.

**Recreation in the School as a Community Asset**

The White House Conference affirmed the right of the child to wholesome physical and mental recreation, and to a safe and wholesome place in which to play. The school shares the responsibility for providing these.

**Resolution**

"The May Day—Child Health Day Committee of the Conference of State and Provincial Health Authorities of North America met as the headquarters of the American Child Health Association in New York City, December 19 to formulate a May Day, National Child Health Day Program for 1931.

"It was the unanimous thought of the Committee that the program for 1931 should be based upon the findings of the White House Conference on Child Health and Protection, which have been expressed in the nineteen fundamental points adopted by the White House Conference and now known as the Child Health Charter. The Committee adopted as the keynote of the May Day—National Child Health Day Program, 'Community Responsibility and Cooperation for Child Health and Protection.' And they outlined the special phases of child health and protection upon which their group would concentrate attention in the May Day program.

**Health Service For Child**

According to the conclusions of the White House Conference, every child should have a periodic health examination as a part of a school health service, which service should (a) be carried on in cooperation with home and community agencies, (b) be essentially educational, and (c) consider the welfare of the whole child, including the mental, emotional, and physical aspects of health.

**Parent Education**

The White House Conference reports emphasize that parents are the greatest controlling influence in the lives of their children. For this important role of parenthood both fathers and mothers need continued education and guidance.

What is your community doing to provide an opportunity for parents to receive this guidance?

Some communities have organized child study groups for parents through the local Parent Teacher Association. School principal

## UNEXPECTED CRISIS.

No matter how prosaic and well-regulated human life can become in an organized society, the possibility of a sudden, life-and-death emergency can never be removed entirely from any man's pathway. The daily newspapers—which contain, week after week, the outline-skeletons for scores of novels, if you know how to look for them—emphasize this fact again and again.

A man goes his way through the routine of his daily life, and never so much as rubs elbows with excitement; then, suddenly, without warning, a situation arises that tests him, usually in a fraction of a minute, and compels him to render an accounting, by his instinctive actions, of what he has made of himself.

For instance; you will occasionally find, in your paper, some little story of, let us say, a street car accident—one of those mishaps whereby a loaded car goes careening down a hill out of control. And at the end of it there will be some such sentence as this: "Prompt action by Motorman John Smith got the car under control and prevented a disaster."

Or it will be a story of a fire in some hospital or office building or hotel, and you will learn that some telephone girl stuck to her switchboard, as cool as a veteran, and notified everyone in the place of the danger.

Or, perhaps, there is an accident in a neighborhood theater—and some unidentified patron will, by his presence of mind, prevent a panic and save people from trampling one another to death.

There is a fascination about those little news items. They are so common—and so revealing. Over and over, they tell how this or that ordinary mortal, confronted by a sudden emergency, rises to meet it and proves that he has the right stuff in him.

The most interesting thing is the fact that when such things happen one has no time to plan a course of action. One does what one does instinctively. The man who loses his nerve in a crisis of that kind loses it because, through the years before, he had permitted himself to become a coward. The man who comes through with the deed that saves the day likewise, does it because through all of his life he has been unconsciously preparing himself for such a chance.

Day by day we go through the same old round of duties and diversions, never thinking of danger. Some day, if chance wills it, we shall be dropped into an unexpected crisis; and the way we meet the test will be decided by the thoughts and resolves that we have nourished during the long years of ordinary living.

## REFORMING BY "DRESS REFORM."

An old-fashioned "Mother Hubbard" dress—the last thing to be expected on Fifth Avenue in New York—made its appearance there the other day.

No one had ever seen anything like it on that glamorous thoroughfare. The dress was ugly, uncomfortable and outmoded by 30 years. It was shown with others as unattractive as part of an exhibition arranged by Julia Jaffray, penologist. All of the dresses in the exhibit were institutional costumes selected from various charitable and penal institutions for women and children. It is Miss Jaffray's hope that seeing these drab, harsh costumes may crystallize public sentiment to support a movement to do away with such clothing.

The agitation to substitute bright colors and up-to-date patterns for the hideous aprons which women prisoners now wear can not be ignored as just another fad of the sentimentalists. It is reported that present prison garb is wasteful. Mother Hubbards require more cloth than modern cuts would. The heavy old-fashioned materials cost more by the yard than attractive, equally serviceable fabrics. A feature of the New York display was the bright colored cotton frocks in which New Jersey clothes its homeless children of school age. These frocks were made by women in one of the state's reformatories. It is said the demeanor of the women prisoners were considerably improved by the change in the material and patterns on which they work.

Prison stripes for men have long since been abandoned in most reformatories and the beneficial effect is generally recognized. It seems logical that women prisoners may be even more affected by the appearance of their garments than are men.

Akron, O., rubber center, is said to be the healthiest city in the United States. In a business slump, of course, workers there don't tire as much.

Would it be appropriate, asks the office sage, to call a rasslin match a "joint" debate?

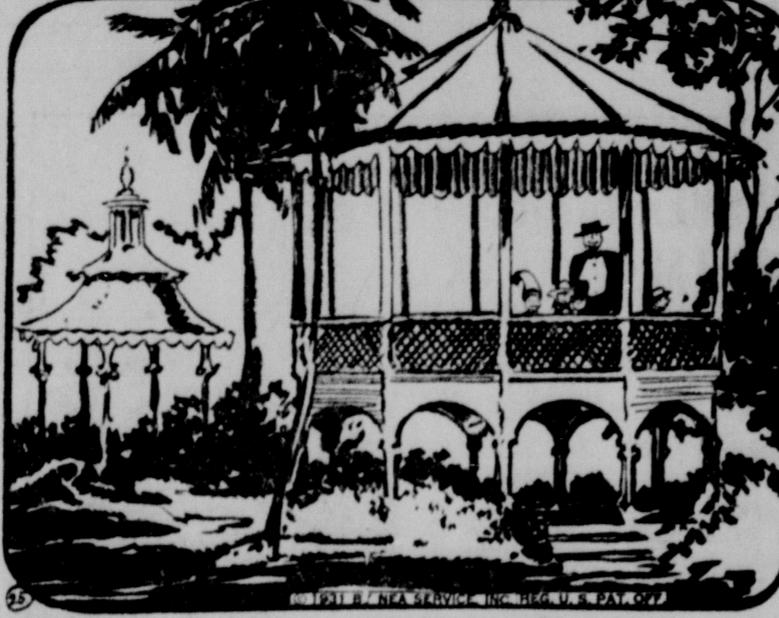

This globe of ours, say scientists, is over two billion years old. They could tell just by looking at the face of the earth.

Talkies are soon to be shown in trains. As if train journeys were not boring enough as it is.

"The play's the thing," as even a bridge player might say.

## THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

READ THE STORY, THEN COLOR THE PICTURE

When Carpy'd ridden 'bout a mile near, was a large pond. He cried, "Look here!" They all walked up and gazed a bit. The Travel Man then said, "I've heard this is a sacred spot. It has real history. But we have looked here long enough. Come on, let's move ahead."

They strolled around the grounds a while and when they'd walked about a mile, one Tiny said, "Let's stop and rest. Where can we all sit down? I see no benches near hand and I am much too tired to stand. I really will be glad when we arrive at some small town."

"Then Clowny cried, "Let's rest up there! I'm sure we'll get some good fresh air, just sitting on the little steps." He pointed to a stand that looked just like a shelter spot for folks to use when it was hot. And as they all walked into it, wee Scouty said, "It's grand!"

(The Tinymites see a native dance in the next story.)

Chile issued an official statement that she would remain neutral.

Philadelphia, Apr. 10—(AP)—Now that Al Simmons, leading batsman of the American League, has signed his contract and Pitcher George Earnshaw has reported to the club apparently in good physical condition the champion Philadelphia Athletics were ready with a full roster today for the opening of the 1931 campaign next week.

Both Simmons, who was not considered by Manager Connie Mack as a holdout, and Earnshaw, about whom reports of illness had been circulated, worked out with the team yesterday at Shibe Park.

Neither Simmons nor Manager Mack would reveal the salary that the slugging outfielder will draw or the length of the contract.

One report said the agreement was for one year at \$30,000; another that it was for three years at \$100,000. "My arrangements with Mr. Mack were highly satisfactory," Simmons said. "And I have nothing on my mind now except to start Tuesday in Washington hitting the ball."

St. Louis, Apr. 10—(AP)—St. Louis' major league baseball teams, the Cardinals and the Browns, came home today from their annual training trips, and tomorrow they will open their annual 2-game spring series at Sportsman's Park.

Except for Ernie Orsatti in left field in place of holdout Chick Hafey, the Cardinals probably will oppose the Browns with the same lineup that completed last season. The Browns, however, will present numerous new faces.

Workouts on the home lot were on today's program for both teams, the Cardinals in the morning and the Browns in the afternoon.

The only prediction of Manager Bill Killefer of the Browns upon his arrival here today was that he would have "a better outfit than last year." Manager Gabby Street of the Cardinals reiterated that he expected the Redbirds to retain their National League championship.

Kansas City, Apr. 10—(AP)—Leslie Bell's batting speed is still battling against Bill Jurgens' speed and throwing arm for a regular job in the Chicago Cub infield.

Bell ranks as the most persistent hit-getter on the club, but his weak right arm and comparatively lack of speed afoot have worked against him. There is plenty of question in the mind of Manager Rogers Hornsby as to which will be a regular when the National League season gets under way. If Bell is benched, Woody English will go to third, and Jurgens will play shortstop.

Detroit, Apr. 10—(AP)—A twenty-eight man Detroit Tiger squad arrived home this morning after two months of training on the west coast in which they engaged in 31 exhibition games. At least two pitchers and an outfielder still are to be pruned from the squad before the June 15 deadline. The Tigers still have three games scheduled for the exhibition season, all with Pittsburgh on the home lot.

Greenville, N. C., Apr. 10—(AP)—Donie Bush, scrappy manager of the Chicago White Sox, has reached the peak of his form—he has been chased off the field by an umpire.

Bush, a mild fellow off the ball field, is anything else but—while in uniform, causing him to be ordered from the scene of action quite frequently. Yesterday against the New York Giants he became so outspoken over a decision by Umpire Charlie Maron that the latter shooed him to the bench.

## SPORT BRIEFS

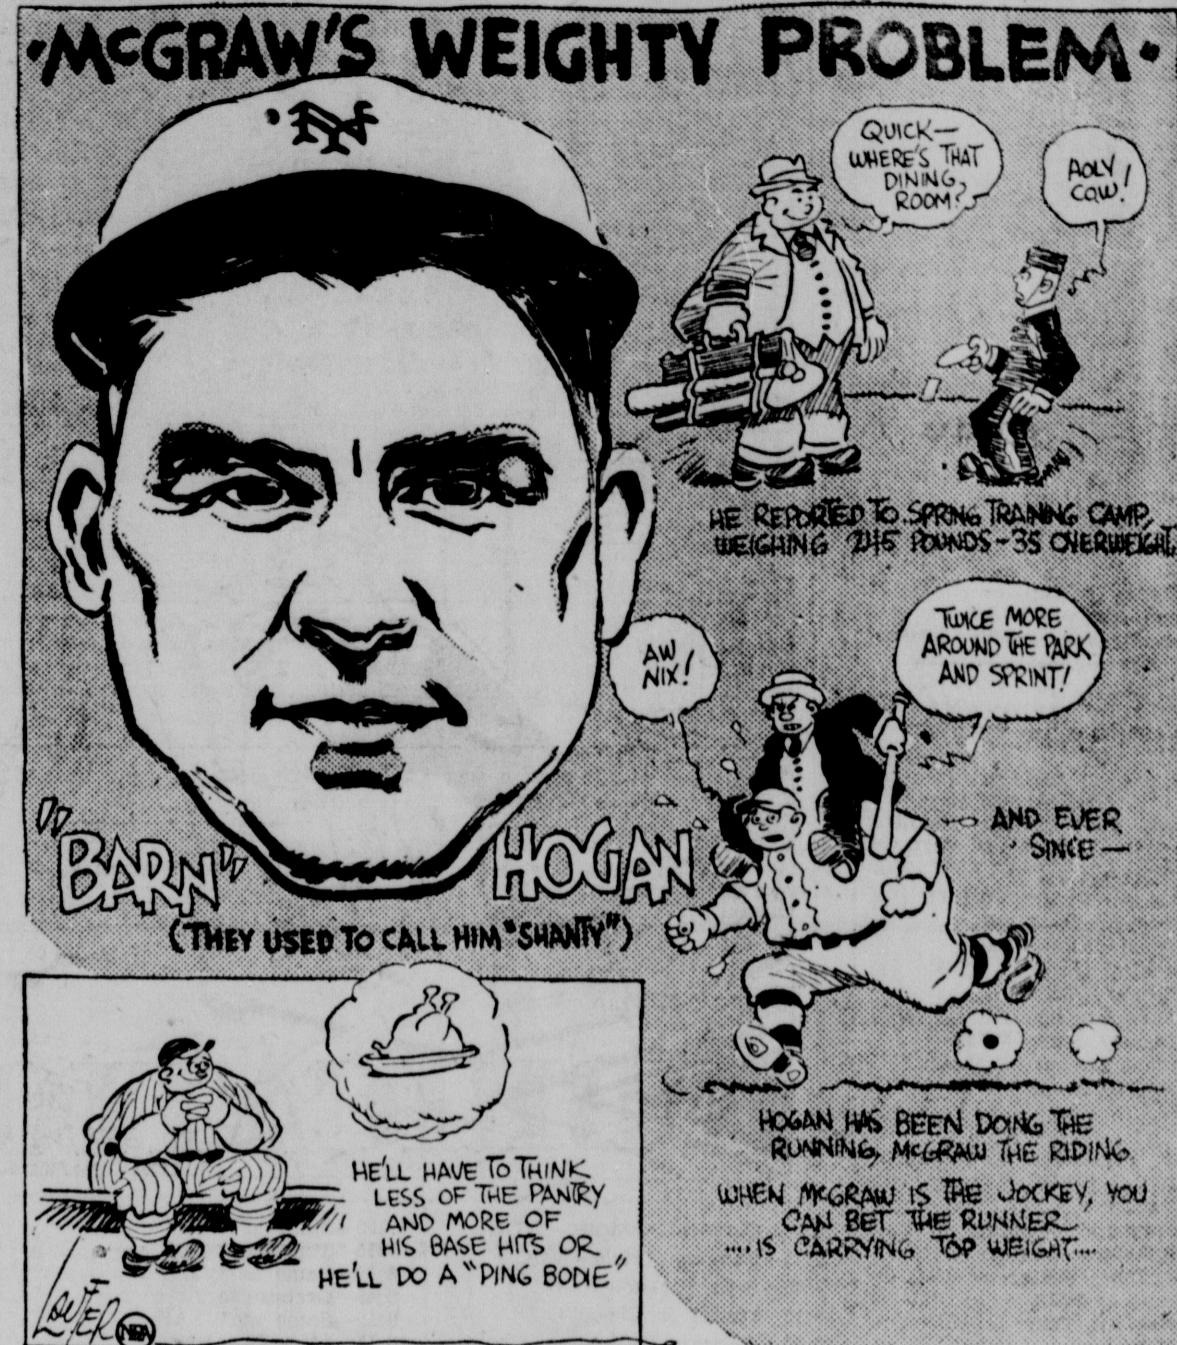

South Bend, Ind., April 10—(UP)—Spring football practice was resumed at Notre Dame today under the direction of coaches Hearty (Hunk) Anderson and Jack Chevigny, assistants to the late Knute Rockne. The practice will continue the rest of the month.

Suggestions to call off spring practice because of the death of the late Notre Dame coach were vetoed by Mrs. Rockne and school officials.

Chicago, Apr. 10—(UP)—William Veeck, president of the Chicago Cubs, said he expected a crowd of 45,000 to see the opening game of the baseball season here Tuesday between the Cubs and Pittsburgh Pi-

## DISSENSION IS REPORTED AMONG HORNSBY'S STARS

### Dismal Showing Of Cubs Causes All Kinds Of Talk By Fans

By GEORGE KIRKSEY

United Press Staff Correspondent Chicago, April 10—(UP)—As the Chicago Cubs move nearer home for the opening of the major league baseball season Tuesday against the Pittsburgh Pirates, the question "Is there dissension in the ranks of Hornsby's team?" becomes more insistant.

The Cubs have been made favorites to win the National League pennant, but not on their form in exhibition games. In 30 games played up until today the Cubs have won 15 and lost the same number and haven't shown a flicker of championship merit.

The club seems to be physically fit, but sadly lacking in their playing against minor league clubs. The pitching has been almost anything but of big league calibre.

Hornsby Makes Rules

There is no grounds for the belief that Hornsby hasn't the Cubs well under control. He demonstrated that when he dismissed Jess Petty, veteran southpaw, in Los Angeles. After releasing Petty, Hornsby remarked:

"No player is going to make his own rules on this club."

Hornsby gave another demonstration that he will not tolerate haphazard efforts on the playing field when he sent Pat Malone to the showers when the latter forgot himself long enough to wind up with men on first and second bases and permit a double steal at Fort Worth.

The loss of spring exhibition games seldom means much. The results of these practice games are not true indicators of the strength of a team. The New York Yankees, even when they dominated the baseball world as no club has before or

since back in 1927 and 1928, always lost a majority of their games in the spring.

### Picked Teams Worst

Another great ball club which is having trouble in its spring exhibition games is the world champion Philadelphia Athletics. Thus the two clubs picked to meet in the world series are among the worst teams on the eve of the pennant races.

Veteran ball players seldom bear down in the spring. The risk of injury is one of the many reasons for the lazy attitude of established stars. They don't start leveling until the games start counting and their pay checks come rolling in.

Hack Wilson, Woody English and Pat Malone are the three members of the Cubs who have been most disappointing in spring training. Wilson

son is batting only .302, English but .233 and Malone has lost two out of three games.

One of the brightest spots in the Cubs' dismal spring showing is the work of Lester Bell, who seems to have recovered from his arm ailment of last year. He is leading the Cubs' regulars in batting with an average of .452. Hornsby is just beginning him with .428, followed by Kiki Cuyler with .418.

## CHAMPION GIRL SWIMMER TRAINS WITH MEN'S TEAM

### Betty Robinson Working Out With Northwestern Track Men

By GAYLORD P. GODWIN

United Press Staff Correspondent Chicago, April 10 (UPI)—The world's champion girl sprinter discovered that she was a runner of more than the average ability by racing for a train—and catching it.

Miss Betty Robinson, a 19-year-old sophomore at Northwestern University, runs the 50-yard dash in 5.4 seconds, just one-fifth of a second slower than the men's record. An Olympic champion in the 100-meter dash, she is the only co-ed to train with members of the Northwestern Varsity track squad.

Miss Robinson attributes her "discovery" to Professor C. D. Price, her biology instructor in high school in Riverdale, Ill.

"Professor Price saw me running after moving train in March, 1928," she said. "I caught the train after a dash of about 70 yards. He seemed impressed in my running and persuaded me to enter the Bankers track meet in Chicago two weeks later. He trained me, showed me how to start, breathe, and move my arms. Two weeks after my race with the train I raced 50 yards against Helen Filkey, an Olympic runner, and was beaten by inches. Three and one-half months later, I won the 100-meter dash in 12.1 seconds."

After the Olympics, Miss Robinson continued her track work. She ran under the colors of the Illinois Women's Athletic Club and began to set records. In a track meet in Chicago recently she tied the world's record for the 50-yard dash, and set new records in the 60 and 70 yard events.

### IS 5 FEET, 6 INCHES

She is 5 feet 6 inches tall and she weighs 130 pounds. She has greenish gray eyes and is a blonde. Her complexion is fair. She is soft spoken, has a hearty laugh, and she walks with a light, quick step. She is popular with both sexes.

Four times during the interview she was called to the telephone on the second floor of her sorority house. She wore a red dress and

## Doug Limbers Up for Siam Visit

While the United States made ready to welcome King Prajadhipok of Siam and his royal retinue on their forthcoming visit, the Siamese were greeting a famous American—none other than Douglas Fairbanks of Hollywood. You see him here going through limbering up exercises aboard ship just before landing at Bangkok, a stop on his world tour.

from a chain around her neck hung a small, gold track shoe with a diamond set in the toe. She got that for defeating Stella Walsh, of Cleveland, in a 50-yard race.

She has bobbed hair. She likes to dance. She neither drinks nor smokes, and gets at least 8 hours sleep every night. Her scholarship is above the average and she has hopes of attaining Phi Beta Kappa. She is studying physical education and intends to coach after her graduation.

"Track is the greatest thing in the world for women," Miss Robinson said. "It is healthful sport and it teaches a girl sportsmanship. Most girls are good losers—if they have to lose—and modest winners." She is a slow starter but usually leads the pack after the first 25 yards. She is training now for the 200 meter dash and hopes that event will be included in the 1932 Olympics at Los Angeles.

Miss Robinson's records include: 6 seconds for the 50 yards indoors, and 5.4 seconds outdoors; 6.9 seconds for the 60; 7.9 seconds for the 70; 11.1 seconds for the 100; and 12 seconds for the 100 meters. She does not use starting blocks.

In addition to being a track star, Miss Robinson swims plays baseball, and is a member of the rifle team at Northwestern.

### Last Game Needed To Decide Hockey

Montreal, Apr. 10—(AP)—The prediction of Bill Tobin, manager of the Chicago Blackhawks, that a finish fight Saturday will see the final decision in the battle for hockey's historic championship trophy, the Stanley Cup, seems to have been justified. Tobin's team is out ahead today, leading the Montreal Canadians two games to one after one of the greatest battles ever seen in the Stanley Cup finals last night. And the chances appear more than even that they can win their third game in the series of five.

After being down two goals to their experienced rivals last night, the young Hawks pulled up to even terms with a belated rush when won out by a 3 to 2 score after nearly an hour of overtime play. The game was close to the playoff record for duration of overtime when Cy Wentworth, veteran defenseman, sank the winning goal 53 minutes and 50 seconds after the start of the extra sessions.

Last year the Canadians and New York Rangers played over 58 minutes

of overtime in a preliminary round game.

## FIGHTS LAST NIGHT

By The Associated Press  
 Milwaukee, Wis.—Roger Bernard, Flint, Mich., outpointed Harry Dubinsky, Chicago (10); Frankie Battaglia, St. Paul, outpointed Haakon Hansen, Chicago (6).

Stockton, Cal.—Bobby Vincent, Tulsa, Okla., stopped Joey Roberts, San Francisco (5).

Denver, Colo.—George Manley, of Denver, outpointed Charley Belanger, Winnipeg (10).

**SLAIN MAN BURIED**  
 Philadelphia, Apr. 10—(AP)—Fred G. Nixon-Nirdlinger, theater manager shot to death by his wife, the former Charlotte Nash of St. Louis, Mo., at Nice, France, March 11, was buried here yesterday. The funeral services were conducted by Rabbi William H. Finshler, of Ke Eseth Israel congregation.

## Industry Of Gold Mining Looks Up

New York, Apr. 10—(AP)—By virtue of economics and legislative fiat, the gold mining industry is looking up.

A sideshow to the recent bear and bull tussles in the big tent in Wall Street has been a baby bull market in gold mining stocks.

The highly speculative nature of gold mining and the numerous fraudulent mining promotions by which "gold brick" securities were sold to gullible buyers in past decades had caused Wall Street to regard these stocks as somewhat beneath its dignity.

But there has been a distinct upward trend in the half dozen or so Canadian and American gold issues traded on the New York stock and carb exchanges in the last two months. Alaska Juneau, long a low priced stock and classed in Wall Street jargon with "the cats and dogs" has more than doubled in value since January.

## A THOUGHT FOR TODAY

Now the God of hope fill you with all joy and peace in believing, that ye may abound in hope, through the power of the Holy Ghost.—Romans 13:13.

A propensity to hope and joy is real riches.—Hume

Nurses when you need Record Sheets you will find them at B. F. Shaw Printing Co.

## ONE MONTH'S SUPPLY

of

## ICE FREE

to every purchaser of an

## ALASKA CORK INSULATED REFRIGERATOR

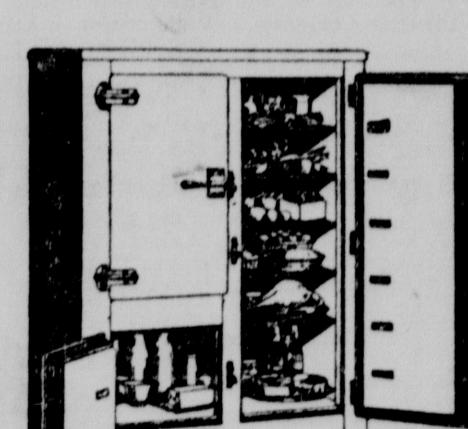

We announce a truly remarkable sale! Every price is a money-saving price. On top of that, we'll pay your ice bills for a whole month. And you get a fine, new Alaska, that will save food and ice bills for years and years. A triple saving! Don't fail to take advantage of it.

### The Modern Ice Refrigerator

The ALASKA has been designed to enable the ideal refrigerator—ICE, to perform at its very best. Walls and doors packed with perfected insulation make a heat-and-cold-resisting enclosure. ALASKA construction throughout is of the highest grade. The seamless porcelain lining is perfectly sanitary, easy to keep white and glistening. Perfect circulation of constantly purified cold air.

### Tested and Graded

ALASKA Refrigerators are built to a definite standard of performance. The Alaska line includes various models that have qualified for grading by the Household Refrigeration Bureau in laboratory tests. A properly iced ALASKA maintained an average temperature of less than 30 degrees in the food compartment and less than 45 degrees in the milk compartment in a room temperature of 75 degrees. In an ALASKA you buy assured performance. If you are thinking of getting a new refrigerator of any kind be sure to visit this sale before you decide.

## DRAMA ENACTED IN LONGWORTH'S OFFICE AT DEATH

### And Picture Hanging On Walls There Assumes Historic Value

Washington, April 10 (UP)—Nothing that has happened in years has spread such sorrow about Capitol Hill as the death of Speaker of the House Nicholas Longworth, beloved of all factions on both sides of the aisle in House and Senate.

There was a dramatic scene in the Speaker's big office off the House chamber yesterday and as the news spread about the corridors of the House and Senate there came a hush over the place.

Many attendants who had known the Speaker's smile and friendly greeting wept when they learned of his death.

Telephones in the Speaker's office were buzzing insistently, all ringing at once, just as they do in the busy closing days of a session.

Miss Mildred E. Reeves, who has been Longworth's secretary for years was at her desk. With heavy heart over news from Aiken that Longworth's death was only a matter of hours, she went, hoping against hope, about her tasks.

Miss Lucille MacArthur, assistant to Miss Reeves, picked up one of the telephones.

**"White House Calling"**

"The White House calling Miss Reeves," she said.

The secretary knew what the news would be. Courageously, she took the receiver.

"—and thank you for calling, Mr. Newton," she said, hanging up the receiver. She turned to the people waiting in the office, Congressmen, newspaper reporters and others.

"Mr. Longworth passed a few moments ago," she said, hastening immediately to answer another telephone call.

"Yes, we've just heard," she said. "Mr. Longworth passed a few moments ago. Thank you so much for calling."

She raised a handkerchief to her eyes a second as she crossed the floor to the still waiting group.

Miss Reeves has grown up in the service of Longworth, and because of her efficient management of the great flood of business that passes through the office, often was addressed as "Madame Speaker."

**Flags At Half Mast**

House Sergeant at Arms Rodgers quickly left the big office and in less than five minutes the Capitol flag went to half mast, there to stay until after the funeral as is the custom when any house member dies.

Harry Parker, aged Negro, who has waited upon chairman of the House Ways and Means Committee, outside the office just down the hall from that of the Speaker's office, for 40 years, was deeply touched.

"The men downstairs just wept like children when they heard it," Harry said. "Why, he stood right here Thursday before he went south and he says to me, 'Harry if I was not going away today I'd go to your church Sunday night. I was always asking him to come to my church and he'd give me flowers and things.'

"It's just like what I was saying when they told me about it. The Lord wants some good men up in Heaven."

Rep. Wood, Rep. Ind., was in the office when the news came. A constant stream of Congressmen were in and out during the morning inquiring about the Speaker's condition.

As the result of Longworth's death a picture that hangs in the office has taken its place with the memorials of history. It is a picture of the House opening for the Sixtieth Congress. Only Longworth was among House members in the picture still living until yesterday. Henry Allen Cooper of Wisconsin, who died a few weeks ago, was the next to last.

There is a small boy standing in the aisle beside his father in the picture.

It is Charles A. Lindberg.

## ROCHELLE NEWS

Rochelle schools are enjoying a vacation the balance of the week with Thursday and Friday as visiting days. Classes were dismissed Wednesday afternoon. Several of the grade school teachers plan to visit Clinton, Iowa schools and others will visit schools in neighboring towns.

Depositors of the Rochelle Trust and Savings bank are organizing a protective association delegating a power of attorney to a committee of three outstanding men in the community, Hugh Clawson, Walter Whitson and Frank Carney. This committee is expected to employ a firm of attorneys to give their en-

### Woman's Dreaded Forties

PHYSICIANS call this period "Menopause." It is the dreaded Change of Life. Women should face this period with well-balanced health, or dangerous symptoms may appear. This is the time when deficiencies in general health must be helped. Every woman approaching middle age should take Dr. Pierce's Favorite Prescription, that splendid herbal tonic.

Every package of Prescription contains a Symptom Blank. Fill out the blank and mail it to Dr. Pierce's Clinic, Buffalo, N.Y., for FREE medical advice.

## Boy Giant's Growth Ordered Checked

Fourteen-year-old Adolph Boone, Jr., of Los Angeles, must submit to pituitary gland treatments to check his phenomenal growth which has already carried his weight to 235 pounds and his height to a shade over six feet, a court in that city has decided. The boy is shown here, left, the arrow indicating the location of the gland which controls growth. Below is his father, Dr. Adolph E. Roome, who sought the order from the court and, above, the divorced mother, Mrs. Helen Roome, who opposed it, as did the boy.

—and thank you for calling, Mr. Newton," she said, hanging up the receiver. She turned to the people waiting in the office, Congressmen, newspaper reporters and others.

## LOOP LIGHTS

BY VICTOR T. HACKLER

Chicago, Ill., April 10—Paraphrasing the old song, the World's Fair management might sing "Don't Bring Us Pennies When It's Tin Types That We Want."

Somewhat the idea got around that the Century of Progress was looking for Indian-head pennies and the management has been almost deluged by letters offering hundreds and thousands of the coins.

Mrs. Lenox R. Lohr, manager of the

### There's Only One Best Way to Start Chicks

Half your future success depends on giving your chicks the right start. You can pin your faith to the original "baby food for baby chicks," because

### pratts BUTTERMILK BABY CHICK FOOD

is made of the purest and most digestible ingredients, so processed as to render them highly potent in the wonderful Vitamin D which prevents leg weakness and increases health and growth.

Don't take chances with your chicks—start right and you will end right. Pratts is guaranteed to raise every livable chick.

Ask us for a free booklet on chick raising and let us tell you what your neighbors have done with Pratts.

to save his voice and still sound as loud and energetic as ever. He talks directly at the floor with his voice raised hardly above a conversational tone.

Spring has revived the show business in Chicago to the point where there are more current attractions than there have been for many, many months. Recent additions were the Theatre Guild's "Elizabeth the Queen," Lenore Ulric in "Pagan Lady," and "That's Gratitude" with Allan Dinehart and George W. Barker.

Radio's little brother Television is going through its infancy with such great strides that the Big Boy may well view the youngster's progress with some alarm—or pride. The two Chicago television broadcasting stations, started about six months ago, now fill the air with sight and sound 40 hours and more a week. There were about 100 receiving sets in the community when they started—now there are at least 2,000. The stations W9XAP and W9XQ have been received as far away as Texas, but their ordinary range is only about 50 miles.

Upon translucent April's tomb  
In blossom time.

**Mrs. Worley Will Be Bride Col. Copley**

Los Angeles, April 10—(AP)—Reports that Colonel Ira C. Copley, wealthy newspaper publisher, and Mrs. Chloe Worley, Pasadena society woman, would be married soon in Paris received a degree of confirmation here today.

Miss Eleanor Worley, Mrs. Worley's daughter, said, "I would not be surprised if mother married Colonel Copley, but this is no time to make it so definite."

At the home of Mrs. Annette Aiken, who recently departed for Paris with Mrs. Worley, it was stated, Mrs. Worley would become the bride of Colonel Copley "in the bridal month of June, of course."

Mrs. Worley, former wife of John Worley, Jr., has known Colonel Copley for several years. Colonel Copley's first wife, Mrs. Edith Copley, died in October, 1929. Colonel Copley left for Paris a month ago.

Colonel Copley was a representative in Congress for 13 years from Aurora, Ill., before coming to California and entering the newspaper business here.

Mrs. Aiken, widow of Martin Aiken, oil operator, was hostess to Michael Clemenceau, son of Georges Clemenceau, the late Tiger of France, on his visit to Los Angeles recently.

**Pretty Wedding at Brooklyn Church**

Miss Bertha Schneider and Mr. Stephan Hart of Shabbona were united in marriage at a pretty ceremony at St. Mary's church in West Brooklyn, Monday evening at nine o'clock. Rev. Father Healy, pastor, performed the ceremony and celebrated the nuptial mass.

The couple was attended by Miss Esther Schneider, a sister of the bride who acted as bridesmaid and Raymond Sheridan of Malta, a cousin of the groom served as best man.

At a late hour the meeting adjourned. The date of the next meeting and plans will be announced later.

At this meeting it was decided to hold the bake sale May 9th.

**Fashion Tea Was Splendid Success; Largely Attended**

The annual Fashion Tea and Style Revue sponsored by St. Agnes Guild of St. Luke's church was held Thursday afternoon and evening at Masonic Temple and it proved a great success and was a very delightful affair. The door receipts will net a neat sum for the coffers of St. Agnes Guild.

The fashion revue of modern styles started at 3 o'clock, with the models wearing new and shapely gowns, wraps, hats, pajamas, dress accessories, etc., from the Kathryn Beard Shop, as Mrs. Beard is a member of the Guild.

The large ball room at the Temple which lends itself admirably to affairs of this kind, was beautifully decorated in branches of apple blossoms, cherry blossoms, and palms, with flood lights from the corners of the room flooding the floor on which the models promenaded, with a bright light. Musicians from the Alaskan orchestra furnished music for the afternoon. Models who exhibited the lovely wearing apparel in the show were Miss Evelyn Krein, Miss Lucille Trautman, Mrs. Bernice Peterson, Miss Alethea Hubbell, and Miss Avis Toot.

The K. O. Bridge club members were delightfully entertained last evening by Miss Lucille Trautman, at her home. Miss Bernice Peterson was awarded the favor for high honor; Miss Alethea Hubbell received the second favor and Miss Avis Toot received the consolation favor. Sweet peas were the attractive and spring-like decorations, with tallies harmonizing. A dainty two course luncheon was served during the happy hour following bridge. The next meeting of the club will be with Miss Josephine Trautman.

Miss Helen Deveny, Miss Polly Woodyatt, Mrs. Arthur Roundy, Mrs. Wayne Wolf, Miss Mildred Trotter, Miss Dorothy Hotmann, Miss Lucille Kelly, Miss Isabelle Lowery.

There were two exhibitions of the modern models in the afternoon and one in the evening with an exhibition each time of the quaint old fashioned styles which were truly lovely and worth while viewing.

At the conclusion of the showing yesterday afternoon the models were grouped at one side in the large room in the finale, while the old fashioned ladies paraded and preened and said "prunes and prisms" with their large hoop skirts and their little hats and tiny parasols. The old fashioned styles were shown again last evening following the style revue from the Beard Shop and they were all heartily applauded.

Miss Lucille Kelly and Gene Wild give an exhibition dance, a waltz, while Mrs. Wilson Dysart sang beautifully, the choruses to the popular numbers, "For You" and "Reaching for the Moon." This waltz was gracefully executed by Miss Kelly and her partner.

As the old fashioned parade crossed the floor Mrs. Lester Wilhelm in her rich mezzo sang "There's Something About an Old Fashioned Girl," and "An Old Fashioned Garden." Mrs. Wilhelm wore an old fashioned costume.

After the style show tea was served at thirty tea tables, a number of attractive young school girls assisting in serving. Georgiana Shaw, Mary Louise Elchler, Eleanor Sterling and Betty Nicholas. The dining room was gay with tulips, and daffodils. The hostesses for the afternoon included Mrs. Robert Shaw, the president of St. Agnes Guild; Mrs. Robert Warner, Mrs. Elmer Reynolds, Mrs. Wilson Dysart, (other officers in the Guild); and Mrs. W. D. Hart, Mrs. Jason Miller, Mrs. Robert Sterling, Mrs. L. R. Evans and Mrs. Lloyd Davies, the last named chairman of the

style show.

Last evening the style exhibition was equally well received and afterward the dance was thoroughly enjoyed. The enjoyable affair was pronounced the most successful of any yet given.

**Mrs. Worley Will Be Bride Col. Copley**

Los Angeles, April 10—(AP)—Reports that Colonel Ira C. Copley, wealthy newspaper publisher, and Mrs. Chloe Worley, Pasadena society woman, would be married soon in Paris received a degree of confirmation here today.

## ROCK ISLANDER TO SEEK LAW TO GOVERN PRISONS

### McCackrin Will Propose Numerous Plans To His Committee

Rock Island, Ill., April 10.—(AP)—A bill of hand cuffing as a feature of solitary punishment in penal institutions in Illinois will be proposed by Harry M. McCackrin, Republican, Rock Island, at the first meeting of his House committee, here next week.

Some changes at the penitentiaries may be accomplished without legislation, McCackrin said, but if not laws will be proposed to secure for convicts proper clothing, proper heat, proper food and proper hospital care.

"With the special committee's exhaustive investigation at Joliet, and with other special committees in investigating or studying methods of employing penitentiary convicts without interfering with free labor, there ought to be some legislation to correct the evils that caused the riots at Joliet," McCackrin said.

"I expect to call a meeting of my regular committee to visit penal institutions upon my return to Springfield, for the purpose of determining what action the committee wishes to take in presenting laws governing penal institutions. Other members of the committee are M. E. Bray, Litchfield; P. J. Breen, Vermilion Grove, Goren W. Childers, Normal; and Robert Whitley, Carlinville.

"Special attention will be given the need for more cell houses as well as obtaining from the parole Board more equitable terms of imprisonment by release of some of those men whom Warden Hill and Deputy Warden Kniss at Joliet testified should be released; and by increasing the number of cell houses, overcrowding should easily be eliminated.

"Warden Hill and Deputy Kniss testified that at between 200 and 500 men should be released immediately. By providing proper employment for those who are kept and by correcting some of the other mistakes that have been made in the past, the prison problem should be greatly simplified.

"It may be some of these things will require legislation. No doubt the regular committee appointed to investigate penal institutions will have much work to do in the coming months."

## BIGGER WINTER WHEAT HARVEST NOW INDICATED

### Dept. Of Agriculture Estimates Crop Of 644,000,000 Bu.

Washington, April 10.—(UP)—Condition of winter wheat on April 1 indicated a production of 644,000,000 bushels this year, the crop reporting board of the Department of Agriculture announced Thursday.

Last year the harvested production was 604,000,000 bushels.

The condition of winter wheat on April 1 was 88.4 per cent of a normal full crop. A year ago the condition percentage was 77.4.

The full report follows:

The indicated 1931 production of wheat was set at 644,000,000 bushels. The five year average is 547,000,000 bushels and in 1930 production was 604,000,000 bushels.

The condition of various crops was given by the crop reporting board as follows:

Ten year average—

Crop	Apr. 1 Apr. 1, '30	Apr. 1, '31
Wintert wh.	79.2	77.4
Eye	84.6	82
Feasture	83.2	78.5
Early Po.	80	75.3
Oats	77.4	71.1
Peaches	73.7	52
(Early potatoes, oats and peaches are for southern states only.)		71.8

## Story of Rise Of Anton Cermak To High Position

BY MERTON T. AKERS  
(United Press Staff Correspondent)

Chicago, April 10.—(UP)—Swept into office by the biggest majority ever given a candidate for mayor, Anton J. Cermak today answered one of the questions being asked in this country and abroad about Chicago's future under his administration.

An incessant hammering for results in the war against crime and in the fields of financing and education will be the keynote of his regime, the mayor-elect said in an exclusive interview with the United Press.

At his political headquarters in the Hotel Sherman while still thumbing hundreds of congratulatory messages on his defeat of "Big Bill" Thompson, Cermak served notice on the underworld that its days of political power are ending.

His manner was business-like and his attitude eager as he discussed the job that lies ahead—the job of redeeming Chicago's reputation as well as changing the character of its government.

"Before you ask me questions about my business," Cermak began, "may I say a few words about my attitude toward yours? It is my hope that I may have the help of newspapers in Chicago as well as elsewhere in my efforts to serve Chicago. Some harsh things have been said in the papers about Chicago. Perhaps many of them have been true. What I want to ask of the papers now is that they have patience with Chicago, that they wait a little while before passing judgments. You see what I mean? Give the new administration an even start."

With that diplomatic preface to the interview, the mayor-elect leaned back in his chair.

"Now," he said, "fire away."

Reporter: Have you any message to the people of other cities?

Cermak: No. I only hope that they will be patient until we can get organized here with the new government. I'm not going to mention gangsters by name. They will all look alike to an efficient police chief and all of them must go.

Reporter: You plan to re-organize the police department?

Cermak: Yes. But I'm not going to be in any hurry about appointing a new chief. I am going to call in the best minds, business men as well as scientific men, before deciding on the new chief.

Reporter: Will the new chief be a civilian, someone like Col. A. A. Sprague, for instance?

Cermak: That will be decided by the best minds. Whether civilian or from the department ranks, he must be an outstanding man. The success of my administration, I well realize, will depend upon the kind of men I am able to select for these important jobs.

Reporter: How can the gangsters be driven out?

Cermak: By making it unprofitable for them to stay. This is a police problem and must be handled by that department. The gangster cannot exist without protection. We will take that away from him. I don't want any boas or ballyhoo about this; I want results. The chief of Police will be responsible for getting results.

Reporter: How do you stand on probation?

Cermak: My position is well known

## Chickens Save Lifer

John Cerar's ability to raise prize-winning chickens has won him a release from a life sentence in prison. Ten years ago John was sentenced to die for murder. Friends succeeded in having the sentence changed to a life term. John entered prison in San Francisco and started raising poultry. His birds won so many cups and medals that he will soon be given freedom to enter the business. He is shown here with two of his prize winners.

## HUGE X-RAY TUBE MAKES RADIIUM RAYS

### A California Development Great Aid to Med- ical Science

BY LEICESTER WAGNER  
United Press Staff Correspondent

Pasadena, Calif.—(UP)—An X-ray tube generating artificial radium rays equal to that given off by the entire world's supply of the rare element has been placed in operation at the California Institute of Technology, where it is being used for treatment.

The tube is the second of 1,000,000-volt capacity to be constructed by Dr. C. C. Lauritsen of the institute. So successful was the first in treating cancer and other growths, that the second was built so that the original mechanism might be used in further experimental work.

The value of the rays to medical science is immeasurable, Dr. Lauritsen declared after the board of surgeons had decided to continue the work with the giant tube.

For if its rays are equal to those which would be generated were the world's supply of radium massed in one spot, it is easy to see, he said, that man has at last artificially produced nature's rarest element at a cost of only a few thousand dollars where the radium is roughly evaluated at \$12,000,000.

Although the capacity of the tube is 1,000,000 volts, it is being used only at a rate of 600,000 volts on its human patients, which, however, is

## Unexploded Bomb Found In Monmouth

Monmouth, Ill., April 9.—(UP)—An improvised bomb, wrapped in adhesive tape, was found unexploded today in the doorway of a clothing store owned by William "Bill" Wallace, Negro. A long fuse was only partly burned. No explanation of the bombing attempt could be learned.

Wallace is scheduled to appear at the April term of Federal court in Peoria on liquor charges. He also faces two local indictments for liquor law violations.

Fruit juices, milk products and beverage extracts are being made in powdered form with an atomizer by a Danish concern.

Reporter: How do you stand on probation?

Cermak: My position is well known

GO TO CHURCH SUNDAY

## Patches Up War-Time Buddy

During the World War, Major Roy W. Ammel, left, of Chicago, and Captain Lawrence C. Spangard were buddies in the Seventh Aero Squadron. Spangard, injured in a crack-up, studied surgery and accomplished his own cure. Recently, Major Ammel was injured in an air crash in Panama, and Dr. Spangard, now practicing at Los Angeles, used the knowledge he had gained from his own injuries in treating his war buddy.

"This new rate should fill every berth on our trains that weekend since it is the biggest general bargain in railroad fares that has ever been presented," Mr. Cairns said. "One hundred and fifty pounds of baggage will be checked free on both classes of tickets. Children's tickets will be sold at half the adult rate, one-half cent a mile and one-half one-way fare for the round trip."

Experiments with the first million-volt tube have been under way for several months, with eight of California's leading radiologists and surgeons supervising the work.

Dr. Lauritsen sees the day not far off when every major hospital of the country will be equipped with one of the tubes at small cost, where few of them now have any supply of radium.

The check was in payment for socket fees, costs of abstracts and records in the Tribune's suit against former Mayor William Hale Thompson and former Treasurer George Harding of Chicago, to compel them to reimburse the city to the extent of \$2,000,000 which was paid out to real estate experts for appraising certain property.

The Supreme Court at a recent term reversed and remanded the judgment of the Cook county court which had held in favor of the Tribune. A rehearing in the case was denied.

## Tribune Settles Big Court Costs

Springfield, Ill., April 10.—(UP)—A check for \$4,533.80—the largest ever received today by Charles W. Vail, Clerk of the Court, from the Chicago Tribune.

The check was in payment for socket fees, costs of abstracts and records in the Tribune's suit against former Mayor William Hale Thompson and former Treasurer George Harding of Chicago, to compel them to reimburse the city to the extent of \$2,000,000 which was paid out to real estate experts for appraising certain property.

The Supreme Court at a recent term reversed and remanded the judgment of the Cook county court which had held in favor of the Tribune. A rehearing in the case was denied.

## Two Bargain Days Of Travel Coming

Two bargain days of travel, inaugurating a lowfare experiment unique in railroading, will be held April 24 and 25, when one-cent a mile tickets are sold in coaches between all points on the Chicago & North Western Railway System east of the Missouri River with a ten day return limit, and round trip first class tickets are sold at the one-way rate good in sleeping cars with the same return limit. C. A. Cairns, Passenger Traffic Manager of the road, announces.

The value of the rays to medical science is immeasurable, Dr. Lauritsen declared after the board of surgeons had decided to continue the work with the giant tube.

For if its rays are equal to those which would be generated were the world's supply of radium massed in one spot, it is easy to see, he said, that man has at last artificially produced nature's rarest element at a cost of only a few thousand dollars where the radium is roughly evaluated at \$12,000,000.

Although the capacity of the tube is 1,000,000 volts, it is being used only at a rate of 600,000 volts on its human patients, which, however, is

## MAJOR INJURIES TO BALL PLAYERS FEW THIS SPRING

Luque, Heilmann And Pip-  
gras Are The Only  
Regulars Out

By LEO H. PETERSON  
United Press Staff Correspondent

New York, April 10 (UP)—Injuries sustained during the spring training season have wrecked the championship hopes of many ball clubs in the past but when the 16 major league teams line up for their opening gestures of the 1931 pennant campaigns next week only three teams will be without their full strength.

A United Press survey today disclosed that Adolph Luque, veteran pitcher of the Brooklyn Robins; Harry Heilmann, Cincinnati Reds outfielder; and George Pipgras, pitcher for the New York Yankees, are the only three players counted upon as regulars who will not be ready to help fire the opening guns.

Luque, who did much to keep Brooklyn in the National League race last season, is suffering from a dislocated thumb on his pitching hand and probably will not be able to take his turn on the mound for another month. Heilmann is suffering from muscle ailments that likely will keep him out the entire season while Pipgras is recovering from an operation for the removal of his appendix and probably will not be available to Manager Joe McCarthy until sometime in May.

There have been the usual number of minor injuries during the exhibition game season but none of them will handicap players to such an extent that they will not be ready for the season's opener. Some

arms and legs are a common ailment this time of the year but the condition of none of the victims is serious.

Travis Jackson, star shortstop of the New York Giants, has a sore arm that has kept him on the bench the past four days but after a short rest he should be able to resume competition. Harvey Hendricks, a Brooklyn utility man, probably will be incapacitated until Monday with an injury received when struck over the eye by a batted ball.

Not only is the spring training season been devoid of serious injuries but it has seen the comeback of two men who played through the entire 1930 season with sore arms. They are Tommy Thomas, Chicago White Sox pitcher; and Lester Bell, whom the Chicago Cubs counted on heavily last season at third base. Both Thomas and Bell have played their old time form this season and will be ready for the opening games if called upon.

**Prominent People  
Suffer Bronchitis**

Bronchitis, a respiratory ailment, which often has serious consequences, has affected prominent people in various parts of the world today.

## WRIGLEY'S WHEAT AND COTTON PLAN RETURNS PROFITS

### And Also Wins Chewing Gum Magnate The Good Will Of Growers

Chicago, April 10 (UPI)—William Wrigley, Jr.'s, idea of bartering "gum for wheat" in three Canadian provinces and "gum for cotton" in 12 southern states brought him increasing reserves of both commodities today.

The wheat plan, involving the use of gum receipts in Manitoba, Saskatchewan and Alberta for the purchase of Canadian grain, was put into effect by the chewing gum magnate last December.

He hoped to buy up to 1,000,000 bushels of wheat at or below 65 cents a bushel between December 30 and May 1. But Wrigley announced today he had decided to extend the purchases, in increased amounts, to the end of the year. Thus far his wheat holdings approximate 500,000 bushels and his gum business in the three provinces has increased ten per cent.

It was the success of this venture into the commodity market to aid farmers to rid themselves of crop surpluses that led Wrigley last week to branch out into cotton. On April 1 he began buying cotton with up to \$12,000,000 of his gum receipts in the south. He expects to buy 100,000,000 pounds of cotton at 12 cents a pound or less.

**Get Commendations**

Today the desk of Allan Ross, Wrigley company vice president, was stacked high with commendations from the southern states which may benefit from the idea. A preliminary estimate of the funds already available for cotton purchases indicated heavy buying in immediate prospect.

"We realize that compared with Canada's wheat holdings and the south's cotton output, our purchases will be relatively small, but it is our hope that numerous other industrialists dealing with these parts of the United States and Canada will adopt similar plans, making possible the complete underwriting of both crops," Ross said.

**Plan Is Feasible**

The wheat plan was experiment, Ross explained, and its return to the Wrigley company in good will and actual profit demonstrated the feasibility of a similar arrangement in the south.

"Both plans were based on a decision to invest some of our surplus cash in commodity surpluses instead of letting it remain idle in banks," Ross said.

Both of Wrigley's present plans are a renewal, on a more extensive scale, of a "gum for cotton" idea tried out by him in 1914. At that time cotton was selling around 5 cents a pound and small planters were in difficulty.

"I knew nothing whatever of cot-

ton and I took the word of planters on the grades I was buying," Wrigley recalled. "In no instance was there any cheating and I learned that one can depend on the business honesty of the Southerner."

### West Brooklyn News

A quiet but pretty wedding service was solemnized at St. Mary's church here Monday morning at 9 o'clock which united the lives of Miss Bertha Schneider and Stephen Hart. The ceremony was performed by Rev. P. D. Healy, and the double wedding service was used.

The couple were attended by Miss Edna Schneider, a sister of the bride, and Raymond Sheridan, a cousin of the groom. The bride wore white chiffon with an embroidered tulle veil. She carried a bouquet of white carnations.

The bridesmaid was attired in flowered chiffon and carried pink carnations. Both men wore conventional blue.

Following the wedding, breakfast was served at the bride's mother's where all the immediate friends and relatives had gathered for the occasion. Out of town guests were: Mrs. Joseph Schneider of Van Orin, Mr. and Mrs. Francis Hart, Mrs. Mary Hart, Thomas Hart, Charles Hart, Misses Winefred and Cora Hart, Mr. and Mrs. Leo Henry, all of Malta. Otto and Thomas Barr and Miss Iona Paulis of Rockford, Mrs. Mary Jones, Paul Jones and Miss Cora Sondgeroth of Mendota.

The bride is the daughter of Mrs. Margaret Schneider of this village, and is a very capable young lady, of pleasing disposition. She graduated from the parochial and high schools here some few years ago with high honors. The groom is the son of Mrs. Mary Hart of Malta, and is a progressive young farmer. The happy couple will make a brief honeymoon trip and will be at home to their friends after May 1 at their Malta home.

Alphonse Lauer was here from Sublette Wednesday calling upon fellow bankers.

Mrs. Mae Gallagher was here from the vicinity of Paw Paw the latter part of the week calling upon friends.

Mr. and Mrs. Joseph Vermier welcomed a baby boy to their home last week.

Merle Pine resumed his duties on the mail route Monday after being laid up for two weeks with chicken pox.

Mr. and Mrs. Joseph Sondgeroth were here from Belvidere over Easter and visited at the home of their mother, Mrs. H. F. Gehant.

Mr. and Mrs. Florian Walter motored to Aurora Sunday to spend Easter with their parents, Mr. and Mrs. A. B. McCREA.

Mr. and Mrs. Henry Lipp and Miss Dorothy Lipp motored to Milwaukee Monday and visited with their daughters.

Mr. and Mrs. Dennison McCoy were here from Aurora and spent the holiday at the home of their mother, Mrs. Jacob Longhain.

Mrs. Albert Hoerner and her mother, Mrs. Frank Galliath were

here from Mendota Tuesday calling at the home of Mr. and Mrs. Joseph Galliath.

James Reuben was here from Bradford township Tuesday on business.

Henry Kinkelar was here from Peru Wednesday calling on friends and former neighbors.

John W. Banks was here from Compton calling upon business men Tuesday.

The dance at the opera house on Tuesday evening was fairly well attended considering the busy season, and everyone had a fine time.

There were 150 ballots cast here in the township election Tuesday. John Fassig received every one of the 150 votes cast and William Ulrich received 133 of the total for school trustee. Mr. Fassig and Mr. Ulrich were elected to succeed themselves and were not opposed. In Viola the bond for additional graveling was carried by a three to one vote.

Otto Haub and Miss Margaret Henkel were in Dixon Monday calling on friends.

Leslie Wren was here from Compton Wednesday calling on brother bankers.

Mr. and Mrs. Earl McKnight motored to Ohio Station Sunday where they called on friends and former neighbors.

Clement Dinges was a business caller in Mendota Monday.

Mr. and Mrs. Charles Clopine were in Aurora Sunday visiting their

daughter, Miss Alma Clopine. Mrs. Carrie White entertained the ladies of the Domestic Science Club at her home Wednesday afternoon where a very pleasant afternoon was had by the ladies.

Mr. and Mrs. Amel Henry were here from Dixon Wednesday calling on friends and acquaintances.

Miss Geneva White has been nursing at the Rochelle hospital for the past two weeks.

Raymon Danekas was here from Franklin Grove and spent Easter at home with his parents, Mr. and Mrs. H. H. Danekas.

Joseph Mauer was a business caller in Mendota Wednesday.

Mr. and Mrs. James Boyle entertained relatives at their home on Easter from Ransom.

Miss Mildred Delhotal was home from Dixon Sunday and spent the day with her parents, Mr. and Mrs. Frank Delhotal.

The funeral services of Miss Doris Miller were held here Monday morning at St. Mary's church. Miss Miller is a sister of Herbert Miller, and passed away following an operation for appendicitis at Aurora.

Mrs. John Acker and daughter, Miss Martha, were here from DeKalb Sunday and spent the day at the home of her sister, Mrs. Kate Tressler.

Mr. and Mrs. E. W. Parker were here from Ashton Monday and called on friends and acquaintances.

Theodore Vincent was able to be about his duties at the soft drink parlor Monday after a two weeks illness.

Mr. and Mrs. Martin Wigum of Aurora and Mr. and Mrs. Joseph Bushbaum of Chicago were here on

Sunday and spent the day at the home of Mr. and Mrs. John Erbes home.

Mr. and Mrs. Lewis Henry were here from near Paw Paw Sunday visiting with friends and relatives.

Herbert Danekas motored to Wayne City, Ill., Tuesday where he returned with a truck load of horses for Joe Kaufman.

Mr. and Mrs. A. L. Derr and Mr. and Mrs. Charles Elliot motored to Shabbona Sunday and were guests for dinner at the home of Mr. and Mrs. Leslie Derr.

Walter D. Gehant was here from Chicago Heights Sunday and spent a brief time visiting his parents, Mr. and Mrs. Frank Gehant, Sr.

Miss Esther Michel was home from Waukegan Sunday and visited her parents, Mr. and Mrs. J. H. Michel.

The funeral services of Miss Doris Miller were held here Monday morning at St. Mary's church. Miss Miller is a sister of Herbert Miller, and passed away following an operation for appendicitis at Aurora.

Mrs. John Acker and daughter, Miss Martha, were here from DeKalb Sunday and spent the day at the home of her sister, Mrs. Kate Tressler.

As has been pointed out previously in these columns, the materials to which people are particularly sensitive and which are usually responsible for such attacks are the ragweed, the dandruff of cat hair, various food substances, bacteria and occasional miscellaneous substances.

The late custom of naming furs for other than those of the animals from which they originate not infrequently results in undetermined sensitivities. As is emphasized in an article recently published by Dr.

discharge from the nose, itching, and considerable swelling of the mucous membrane which interferes with breathing, the condition is said to be the physician to represent sensitivity to some protein substance.

Because of the difficulty in determining the nature of the condition until fairly recent times, a number of scientific names became established as descriptive of the disease.

It is estimated that somewhere between one and two million people suffer from this disturbance and that some 6 to 25 per cent of people with hay fever, vasomotor rhinitis or allergic rhinitis have complications in the form of infection of the sinuses and disturbances of the lungs.

Since about 30 per cent of people with hay fever also have seasonal asthma, the condition represents one of the most important that confronts the medical profession.

As has been pointed out previously in these columns, the materials to which people are particularly sensitive and which are usually responsible for such attacks are the ragweed, the dandruff of cat hair, various food substances, bacteria and occasional miscellaneous substances.

The treatment of hay fever has come to be a complicated matter. There is the possibility of desensitization by the injection of small amounts of extract; the palliative treatment in the form of injection of ephedrine or adrenaline; direct treatment of mucous membranes of the nose, and finally careful studies of diet, with a view to eliminating the substance causing furs.

In some instances it is necessary for people to go to climates where the dosage of the pollens to which the person is sensitive is so low that the symptoms are modified or removed.

Samuel M. Feinberg, sable or fox is sometimes dyed rabbit, ermine is sometimes white rabbit, and bear or leopard is not infrequently goat.

Horse hair dander may be associated with horseback riding horse hair in a mattress, or furniture that is stuffed with horse hair. Of particular interest are miscellaneous subjects that bring about hay fever or vasomotor rhinitis, such as face powder, containing orris root, cotton mattresses, containing cotton seed, and even ordinary house dust.

Recently chocolate has been incriminated as especially likely to set up disturbances, affecting not only the nose but in some cases the intestinal tract.

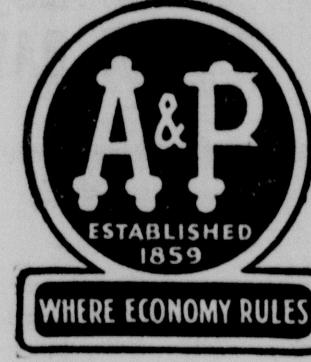

The treatment of hay fever has come to be a complicated matter. There is the possibility of desensitization by the injection of small amounts of extract; the palliative treatment in the form of injection of ephedrine or adrenaline; direct treatment of mucous membranes of the nose, and finally careful studies of diet, with a view to eliminating the substance causing furs.

In some instances it is necessary for people to go to climates where the dosage of the pollens to which the person is sensitive is so low that the symptoms are modified or removed.

Twenty-three Negroes have served in Congress since 1870-71. In the House of Representatives and two in the Senate.

## EYE RESEARCH WORK BRINGING FAME TO NATION

King of Siam To Be Examined at Wilmer Institute

Baltimore, Md., April 10—(UP)—Research in diseases of the eye, which has put the United States in the forefront of ophthalmology, is under way at the Wilmer Institute of Johns Hopkins Hospital where the afflicted King Praja Dhipok of Siam soon will be examined by Dr. William Holland Wilmer preliminary to an operation in New York.

Booth Tarkington and Charles A. Lindbergh are among the distinguished patients treated by Dr. Wilmer who, during the war, was responsible for the eyesight of A. E. F. fliers.

Research to broaden the field of eye knowledge is carried on at the Institute which is the ophthalmological department of John Hopkins Hospital and the central structure of the corresponding department of Johns Hopkins University.

In general research is progressing with respect to the chemistry of the eye, with radium as it is related to the eye and with specified diseases about which insufficient knowledge now is available. Chemical research especially deals with a study of the blood in relation with the eye and a hint of the direction of this work is contained in the statement that it has been thought a super abundance of calcium in the blood may have some relation to cataracts.

Cataracts are the affliction of the King of Siam. Records of the Institute also show that large numbers of persons suffering from cataracts also have diabetes.

More adequate knowledge also is sought regarding trachoma and the specialists concede that little is known of the disease, called glaucoma. With radium the Wilmer Institute staff hopes to aid industrial workers whose eyes have been injured by flying particles. Radium is expected to hasten absorption of scar tissue and thus to restore clear vision after such injury.

Without the wage earners and the folks of the towns and cities as consumers for products raised by our farmers, they would go back to the days of long ago when the people raised only enough for their own consumption and what they could trade with their neighbors.

What this country needs is more

politicians and less politicians.

YANKEES' OWNER ILL

New York, April 9.—(UP)—Colonel Jacob Ruppert, owner of the New York Yankees baseball club, is seriously ill with acute bronchitis at his apartment here, it was learned today.

Ruppert contracted a slight cold three days ago, became seriously ill and has been confined to his bed since.

Every precaution against complications is being taken because of the baseball magnate's advanced years.

ORDER GROCERIES EARLY

**TOM-TOMS BEAT  
AS YOUNG BUCKS  
TRY OLD DANCES**

**Western Indians Celebrate Road Completion with Whites**

By DAN BOWERMAN

United Press Staff Correspondent  
Tahola, Wash., April 10 (UP)—While tom-toms beat and campfires flicker, young bucks of the Quets and Quillayute tribes practise the ritualistic dances of their fathers in this Indian village.

More and more the politicians are trying to dictate to private business what they shall do, what they shall sell, by over taxation, by over regulation, and any means to chase capital to cover. Investors are putting their money in foreign securities instead of putting their money into industries that use local material and make payrolls so needed in every community.

Organized politicians raise Cain with unorganized business.

Some of our politicians should have a change of heart. Capital comes where it is invited and stays where it is treated fairly.

The Quets and Quillayutes decided to take part in the celebration. But, Chief Howeattle sorrowfully

admitted, the young men of his tribe have never learned the ritualistic dances of the elk hunt and the whale hunt.

"Many of the dances have never been performed in the presence of whites," Chief Sams said. "It will be necessary for us to name interpreters to explain the historical facts in connection with every feature of the celebration.

## OBITUARY

MISS DORIS MILLER

(Contributed)

Miss Doris Miller, daughter of Mr. and Mrs. John B. Miller of Compton, died Saturday at 11:30 p. m. at St. Charles hospital at Aurora, where she had undergone an operation for appendicitis on Wednesday, April 1.

Miss Miller, who was 22 years of age, was a graduate of the Compton and Mendota high schools and the Metropolitan Business college of Aurora. She was employed in the office of the Northwestern Mutual Life insurance company in Aurora. Surviving besides her parents, are two brothers, Gladwin of Chicago, Herbert of West Brooklyn, and two sisters, Mrs. Maxine McKinnis of St. Louis, Mo., and Helma at home.

She was born in Compton, March 15, 1909. Funeral services were conducted from the home Tuesday morning at 8:30 and from St. Mary's church at West Brooklyn at 9 o'clock.

"Demand for nearly 1,000,000 extra bales of cotton in addition to an increase in consumption resulting from new uses for cotton will develop. There will be corresponding increases in the total home consumption of meats, fruits, vegetables and other farm commodities."

The increasing demand for farm products will lead to greatly improved methods of production and harvesting, Moran believes.

**SCHOOER'S CREW SAVED**

New Orleans, La., April 9—(UP)—The crew of the disabled Newfoundland fishing schooner, Harry and Verna, has been rescued in mid-Atlantic by the New Orleans steamship Sapirio, according to a radio message from the vessel's captain, A. J. Johansen, received here today. The crew of six was taken aboard before dawn, the message said.

## GRACE EVANGELICAL CHURCH

Fellowship and North Ottawa

A. D. Shaffer, pastor

Mrs. O. E. Strock, organist

The last Sunday before the Annual Conference which will meet in Barrington April 14. The pastor is looking for a large attendance. Come and hear the report of the year's work. The report is very gratifying considering the financial depression. The services are as follows:

Morning prayer at 9:30, followed by the Sunday school session at 9:45.

Divine worship at 10:45. Theme: "The Christian State and Character."

E. L. C. E. at 6:30 P. M. followed by the worship hour at 7:30. Theme: "The Practical Man."

Joint meeting of the Woman's Missionary Society and the Young People's Missionary Circle at 7:30 Monday evening at the church.

Mid-week service on Wednesday evening.

## FIRST BAPTIST CHURCH

Walter W. Marshall, Minister

Mrs. L. M. Drach, S. S. Supt.

Mrs. Elmer Rice, Director of Music

Sunday Bible school at 9:45 A. M. Adult subject: "The Church and the Repentant Sinner." Let us endeavor to beat last Sunday's record. Excelsior. Morning worship at 10:45 A. M. when the pastor will preach on "Losing One's Self."

B. Y. P. U. at 6:30 P. M.

Evening service at 7:30 P. M. Current topic: "The Red Menace in India."

Sermon theme: "The Five Cords."

Wednesday at 7:30 P. M. The mid-week service for prayer and Bible study. We will take up the outline of the Gospel of Mark this week. Bring your New Testament, a note-book and a pencil.

Thursday at 6:30 P. M. The Agogia class will meet for their monthly meeting beginning with a scramble supper.

On Wednesday 22nd April at 7:30 P. M. we are expecting to have with us the Rev. Christian L. Elcher of India who will tell us about his work in that great land. Keep that evening for this interesting meeting which will be illustrated by lantern pictures.

## FIRST PRESBYTERIAN CHURCH

E. Third St. near Galena Ave.

J. Franklin Young, Minister.

Residence, 316 E. Third St.

Bible school at 9:30. A hearty welcome will be given to all, both old and young.

Morning worship at 10:45. This will be the April Communion service. The choir will sing "Peace I Leave with You" by Roberts and Mrs. Lester Wilhelm, will sing, "Come Ye Blessed" by Scott.

The reception of new members will be followed by the Communion Service. Meditation, the theme of which will be "The Best Friendship" and then the Lord's Supper.

On Monday at 10 A. M. the Presbytery of Rock River will meet in the South Park Presbyterian Church, Rock Island.

On Tuesday at 8 P. M. the Presbyterian Guild will be entertained by Miss Helen Rounds at the Coffee House on St. Galena Ave.

At the congregational meeting of the church on Wednesday evening elders of the church and L. B. Altkruse and L. B. Potter were elected trustees. The men who were elected elders will be ordained and installed as such on Sunday April 19th.

A week from Sunday afternoon there will be a Young People's Rally

"Madam this is the finest bread ever baked"

Controlled Roasting Gives Hills Bros. Coffee Flavor

in the church. The young people from a third of Rock River Presbytery are expected. A program is offered and a light lunch will be served before the young people start for their homes.

## BETHEL UNITED EVANGELICAL CHURCH

Cor. N. Galena Ave. & Morgan St.

Paul D. Gordon, Pastor

Sunday school 9:45 A. M. J. U. Weyant, Supt.

Morning worship 10:45.

Rev. C. G. Unangst will bring the morning message and preside at the communion.

K. L. C. E. Sunday 6:45 P. M.

Evening service 7:30.

The pastor will bring an evangelistic message on the subject of "A Wrong Standard of Measure."

Mid-week prayer meeting Wednesday evening in the church at 7:30 Louis Ziegler, leader.

Quarterly conference this evening at 7:30. All are invited to the devotions.

## FIRST METHODIST CHURCH

Rev. A. Turley Stephenson, Minister.

The post Easter season is now upon us. With it comes a temptation.

The temptation is to think our religious duties and obligations are over for another year. Life is constant and our dependence upon religion ought to be just as constant.

The Church school attendance reached an unusually high mark

during the Easter and pre-Easter season. It is expected that it will continue with east Sunday.

The school meets in all departments at 9:45. C. C. Hintz is general superintendent.

The morning hour of worship next Sunday morning at 10:45. The Pastor will preach and special music will be furnished by the choir.

The young people will meet in the regular Epworth League hour at 6:30 next Sunday evening. The

morning hour of worship next Sunday morning at 10:45. The Pastor will preach and special music will be furnished by the choir.

Following last Lord's Day's inspiring assemblies the church and pastor urge on all the maintenance of the same happy zeal. Visitors are ever welcome.

At three o'clock in the afternoon the choir will repeat the Easter cantata in the assembly hall of the Dixon State hospital. Mrs. Nata Morrill will be the pianist.

## CHRISTIAN CHURCH

Minist. Ben H. Cleaver

SERVICES FOR APRIL 12th—

9:30—Bible school, Jas. G. Leach,

10:45—Morning worship: music in charge of Miss Ora Floto, chorister, and Miss Avis Cronwell, organist; sermon by the minister. "Verily, Verily I Say Unto You" (A study of John's Gospel).

6:30—Y. P. S. C. E.; the monthly honsecration meeting, postponed from Easter Day. Roll call and offering.

7:30—Evening worship — Chorus choir, led by Miss Floto, Clinton Fahne at the organ. Sermon subject, "The Great Question."

Following last Lord's Day's inspiring assemblies the church and pastor urge on all the maintenance of the same happy zeal. Visitors are ever welcome.

At three o'clock in the afternoon the choir will repeat the Easter cantata in the assembly hall of the Dixon State hospital. Mrs. Nata Morrill will be the pianist.

## GRAND DETOUR CHRISTIAN CHURCH

Mrs. Albert Glessner, Bible school Supt.

Bible school at 10:00 o'clock

Next Sunday pastor B. H. Cleaver will preach at two-thirty and conduct communion. His subject will be "Everyday Miracles."

## CONGREGATIONAL CHURCH

313 Van Buren Ave.

Morton W. Hale, pastor

J. G. Risley, Sunday School Supt.

Mrs. A. L. Leydig, organist

9:45 a. m.—Sunday school. Lesson topic, "The Prodigal Son."

There was a record attendance of 279 last week.

The Junior choir will sing...

11:00 a. m.—Morning worship

The combined Junior and Senior choirs will furnish the special music. Anthem "Alleluia Christ Is Risen."

There will be reception of members and the regular quarterly communion will be observed at the close of the sermon.

At the annual business meeting it was voted to hold a meeting of the

## PATENTED PROCESS

BRINGS OUT FINER

FLAVOR IN COFFEE

Controlled Roasting Gives

Hills Bros. Coffee Flavor

No Other Coffee Has

As everybody knows, the flavor of coffee varies according to the way it is brewed. Especially disappointing is the result when coffee stays on the fire too long or is taken off too soon.

Similar unsatisfactory results can occur in the roasting of coffee. If the blend is roasted too long or not enough there is a noticeable difference in flavor between the two lots. Even with watchful care such variation is exceedingly difficult to prevent when coffee is roasted in large quantities.

Realizing this, Hills Bros. originated and patented a continuous process which roasts coffee a few pounds at a time, instead of in bulk. The quantity of coffee passing into the roaster does not vary. The speed of operation and the temperature remain the same with the result that Hills Bros. Coffee is absolutely uniform and has a flavor no other coffee has.

Hills Bros. Coffee never "goes stale" because it is packed in vacuum. By this process air, which destroys the flavor of coffee, is taken from the can and kept out. Ordinary cans, even if air-tight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can. Sold by grocers everywhere.

Hills Bros. Coffee, Inc., Chicago, Illinois.

## BIG CALIFORNIA WATER PROJECT MAKES HEADWAY

Development Would Cost  
\$188,000,000 — Federal  
Aid Is Sought

Sacramento, Cal. April 10.—(UP)—A statewide program of water development, costing \$188,000,000 and greater in magnitude than the famous Boulder Canyon dam, may emerge from the present session of the California state legislature.

Ten years of expert research in which more than a million dollars has been spent, culminated in the definite plan now before the law makers.

Recently a state water commission went to Washington, D. C., to lay before California's engineer-president the scheme for a coordinated plan of development. They found President Hoover thoroughly in sympathy, and members of Congress willing to learn more about it.

### Committed Inspection

As a result, members of the interior department sub-committee on appropriations, headed by Congressman Frank Murphy of Ohio, will visit California this summer to make an inspection of the projects for which Federal aid is sought.

The main water problem in California is a shortage during the summer and fall in many sections, and all year in others. On the other hand, flood conditions and a water surplus apparently exist in certain parts of the state. So the problem is to regulate the available supply and distribute it.

The Southern San Joaquin Valley offers the best illustration of the water engineers. Here is one of the most fertile and productive regions of the state, slowly going back to the desert conditions because of falling water tables.

### Rich Lands Endangered

Rich orange, olive, dairy and cotton lands in south Fresno, Madera, eastern Kings, north Kern and all of Tulare counties, that have been producing crops on land values of approximately \$4,000 to \$6,000 an acre, face utter annihilation.

According to county leaders, assessed values in the single county of Tulare have decreased \$1,000,000 within the last few years, and that if nothing is done to remedy the situation, further losses of from \$3,000,000 to \$5,000,000 will result.

At the delta of Sacramento river the summer flow of water has dropped so low that the salty brine from the ocean has worked up the channels into the fertile farm land. Much of this country is endangered unless a fresh water supply is found.

So the plan evolved out of the 10-year study is as follows:

At a point above Redding, known as Kennett, a large storage dam is to be erected, costing \$84,000,000. This dam would pay for itself out of electric power developed, and would fill many purposes.

### Many Uses

First it would create a great fresh water lake, acting as a flood control project. It would produce hydroelectric power. It would release enough water in the low period months to prevent the encroachment of salt water in the delta section. And it would provide a new water supply for the farm lands of the Southern San Joaquin.

At this point enters an audacious, but practical scheme in water engineering. When this water reaches the delta—opposite the place the San Joaquin river pours into San Francisco bay—it would be picked up by a series of booster dams and pumps, similar to the famous locks of the Panama canal, and sent down the San Joaquin Valley to the thirsty orange, lemon and olive groves.

**Other Projects**

Several other projects are part of the great state scheme, including a fresh-water canal to furnish fresh water to the big industrial plants along San Francisco bay, another

## PAW PAW NEWS

Friday, March 27th, in spite of the imperfect weather conditions drew a large crowd to the Little Ten music festival at Earlville.

Besides the spectators there were about 300 contestants. In the evening the massed choruses and orchestra entertained. Several solos were given by people who had won honors in previous meets. After the festival the "Vagabonds" were hired to furnish music for a dance. This was greeted with much enthusiasm and in spite of the bad roads between there and home a large percentage of the crowd remained.

Earlville and those in charge of the Little Ten arrangement which is being tried for the first time should be congratulated. No prizes were given, but the interest seemed to be just as keen as under the old arrangement. It will be held next year at Hinckley, and after the success of its first trial should be largely attended.

The Wyoming Unit of the Home Bureau met with Mrs. A. C. McBride Thursday afternoon, March 26. Mrs. John Bryant acted as unit chairman. Roll call was answered by giving a "household hint." The minutes of the previous meeting were read and approved.

Mrs. Florence Syverud, Home adviser, gave the lesson, "Principles of Food Selection." Mrs. Frank Nonne entertained with several piano readings which were much enjoyed.

The recreation period, with Mrs. Forest Rosenkrans in charge, followed with several games after which the guests left with expressions of thanks to Mrs. McBride for an enjoyable afternoon.

Miss Dorothy Jones, who has been doing Missionary work in China for more than twenty-five years, gave an interesting address on China last Sunday evening in the Paw Paw M. E. Church. She surprised her audience by the statement that three of the leading members of the new Chinese Republic are Christian men and that the President of the Republic is a recent convert to Christianity.

She lamented the fact that for several years gifts for Missionary work had been decreasing so that important educational work had to

be abandoned until more money was available for the support of the Missionaries and the native preachers. She also quite clearly proved to her hearers that governmental protection from disease by quarantine and other measures, is a by-product of Christianity by a recital of the ravages of cholera, small pox and other contagious disease which claim the lives of thousands every year in China with no effort toward checking these diseases upon the part of the government which is largely dominated by the non-Christians.

Frank Hoyle, accompanied by Harvey Hefner drove out from Chicago Saturday and spent the week end at the Lester Hoyle home. Mr. Hefner is well known in pugilistic circles. He is contending for the middle weight championship of the world.

Mesdames Lester, Walter and Edward Hoyle and Mrs. Henry Burrows Becker and daughters, Misses Mary and Ida.
